## **Programmer**

Proficient in go, I want to write the kind of code Bill Kennedy writes  
Interested in moving into Rust

## **Professional Experience**

Decipher Technology Studios 2017 to Present

Micro-services with gRPC <https://github.com/dougfort/grpc-talk-2018>

Studying Rust independently <https://github.com/dougfort/rspider>

SpiderOak 2007-2017

Significant contribution to an end-to-end encrypted messaging system. Focused on end-to-end encrypted messaging, message manipulation and deletion, secure file management, and more.

Contributed to the prototyping and development of an end-to-end encrypted application and cloud computing platform. The project remains unreleased in favor of the company's pivot into collaboration.
