Go Programmer

Particularly interested in GRPC and observability (metrics)
I want to write the kind of code Bill Kennedy writes

Professional Experience

Decipher Technology Studios 2017 to Present

Developed the 'fabric' GRPC Service Generator <https://github.com/DecipherNow/gm-fabric-go/tree/master/cmd/fabric>

Developed a flexible metrics package
<https://github.com/DecipherNow/gm-fabric-go/tree/master/metrics>

SpiderOak 2007-2017

Significant contribution to an end-to-end encrypted messaging system. Focused on end-to-end encrypted messaging, message manipulation and deletion, secure file management, and more.

Contributed to the prototyping and development of an end-to-end encrypted application and cloud computing platform. The project remains unreleased in favor of the company's pivot into collaboration.
